

BENDIGO HEALTH CARE GROUP REDUCES ENERGY & GREENHOUSE GASES WITH SAVE-IT-EASY®

The Bendigo Hospital is currently on track to save over 50 Tons of greenhouse gas in the first year, with more savings to come online by the end of 2006.

Your solution to easy savings!

Bendigo Health Care Group is achieving significant and sustainable energy greenhouse gas reductions, by installing the Save-It-Easy® solution for 36W T8 fluorescent lighting at The Bendigo Hospital.

Each Save-It-Easy® device reduces the energy consumption of 36W T8 lamps by up to 35% when installed with 28W T5 lamps - with undetectable changes in light levels.

This energy saving initiative is one of the many projects undertaken by the Engineering Department within the Bendigo Health Care Group and is supported by The Department of Health Services.

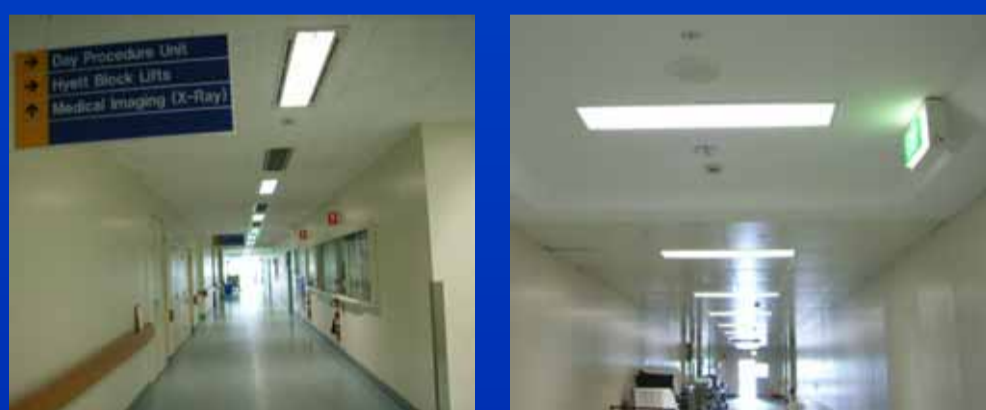

Reduce your lighting energy bills by up to **35%**

The Bendigo Hospital achieved additional savings through de-lamping in some areas as light levels were greater than required after installing Save-It-Easy®.

The Ultimate Plug and Save e-Ballast

Corridors - saving of over 30% in lighting energy consumption

Reception Area & Offices - saving of over 40% in lighting energy consumption

Medical Records - saving of over 60% in lighting energy consumption

Save-It-Easy® is marketed in Australia by Ilum-a-lite Pty Ltd.
