

CASE STUDY

Product: Save It Easy® Inline T5 adaptor

Customer: Symbion Pharmacy Services (a division of Symbion Health)

Customer Contact: Available upon request

Location: Beresfield NSW 2322 Australia

Investment: AUD\$75,000 (including T5 lamps)

Annual Savings: AUD\$42,000

Return On Investment: 56% (simple payback = 21 months)

Greenhouse gas savings per year: 335 Tonnes of CO₂ equivalent

Project Description:

Symbion Pharmacy Services Pty Ltd (Symbion) is leading the way within the pharmaceutical industry and living up to its slogan **life matters®**.

The facility management team at Symbion has been busily focussed on energy reduction strategies within their distribution centres and have implemented continuous improvement programs to increase energy efficiency.

Symbion Pharmacy Services Pty Ltd (a division of Symbion Health) and Ilum-a-Lite became partners in a lighting energy reduction program to utilise the latest in T5 lamp technology for office and warehouse spaces

of its New South Wales Distribution Centre.

An upgrade to electronic T5 lamps was specified using the Save-it-Easy® in-line T5 retrofit system. All T8 4ft fluorescent luminaires were upgraded to highly efficient T5 operation with a 33% energy saving and correspondingly large reductions in greenhouse gas emissions.

The Save-it-Easy® solution did not require replacement of light fittings, nor re-wiring, nor highly qualified electricians to complete the work.

This upgrade project was completed with minimal delay and disruption, Symbion staff commenting on how easy the upgrade was - being as simple as re-lamping the old fittings.
