

WHAT OUR CUSTOMERS SAY...

Customer: Victoria University, Melbourne Australia

Customer Contact: Jillian Bambach

Position: Environment Coordinator, Facilities Department

Date of Installation: 2006—ongoing

Return On Investment: 19 months

Greenhouse gas savings per year: Greater than 500T/year

"...the price, payback, quality of the products, warranty, performance guarantee are part of why we invest.

VICTORIA UNIVERSITY

A NEW SCHOOL OF THOUGHT

However I think the main reason is the ease in application. Upgrading fittings to be more energy efficient is not an extensive and costly venture with this product.

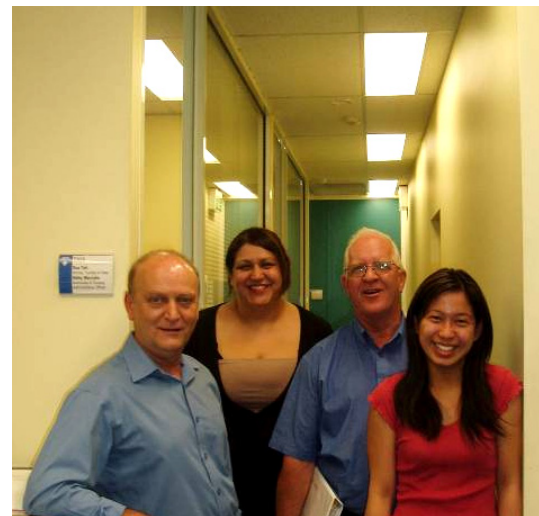

VICTORIA UNIVERSITY

A NEW SCHOOL OF THOUGHT

I also think the high level of customer service and quick turn around times when I place an order have also encouraged us to be committed to your product.

We have seen fantastic energy savings with this product and hope to continue rolling more out across our campuses in 2009 ".

The Save It Easy® project team is all smiles at Victoria University's Nicholson St Campus in Footscray (main building shown at left) – (L-R Glenn Oxley, Ana Raffetto, Geoff Smith and Sue Teh). Light fittings shown in background are post conversion to T5
